## INDEX TO PHOTOGRAPHS

Thomas A. Edison Laboratories, Building No. 3                      HAER No. NJ-70-B  
(Thomas A. Edison Laboratories, Woodworking Pattern Shop)  
Main Street and Lakeside Avenue  
West Orange  
Essex County  
New Jersey

Jet Lowe, HAER Staff Photographer, March, 1986

The rear portion of Building No. 3 was outfitted as a woodworking shop mainly for the production of foundry patterns, but also general wooden model making. Machines are belt-driven, with belting running under the floor rather than overhead. Shop is operable and has been used by preservation specialists in reconstructing woodwork for Edison's house, Glenmont, also located in West Orange, New Jersey.
